Megafilms profile

Megafilms.net is an international distribution company of lifestyle series, documentary, children & youth programs for television and mobile programming. We are working on a regular and loyal basis for a European network of producers. Compare to other distributors we are not only selling completed programs but we are working on programs with producers at international development, film marketing, financing and coproducing stages. However we are as well producing documentaries under 8½ Films ("Soviet empire cinema vestiges" 52' by Piotr Kielar in- development) and animation under Els'Anime ("20° Latitude Kids" HD 20x13' pilot in- production).

Collaboration proposal with CIRCOM members through Media+ distribution scheme

Our current stake is to put together financing to produce our programs. Media+ distribution is encouraging European producers to circulate their programs within EU by funding 10 up to 20% of programs budget when they have a certain amount of EU broadcasters committed. As per CIRCOM Youth seminar I attended, it seems CIRCOM members are looking for high-quality programs for low license fee.

That is why we are proposing CIRCOM members to license programs from our catalogue for free against prebuy letters (model below in appendix) to support our Media+ distribution applications (funding budget part level often the most difficult to gap).

Right now, for example, we are looking for prebuy letters for our 26' animation special "Le Cid" as well as for 20x52'/45'/26' HD series "20° Latitude North".

Do not hesitate to contact me for further information.
I look forward to hearing from you,

Best wishes,
François Barraud
